## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Woods (U.S. Patent Number 6,443,985). Woods disclosed an IOL having an optic with shape retaining synthetic material and an optic positioning member and (figures 1 and 2, column 3 lines,29-67 and column 4 lines 1-67)

### ***Response to Arguments***

3. Applicant's arguments filed October 26<sup>th</sup>, 2005 have been fully considered but they are not persuasive. Applicant argues that Woods (Patent Number 6,443,985) does not disclose an optic centrally connected to the positioning member where in fact Woods displays an optic connected to the optic positioning member in a location central to the anterior and posterior segments within Figure 4. When viewed from the axis displayed in Figure 5 the optic is central to both the anterior and posterior positioning members, should Applicant claim the optic to be between anterior and posterior elements the claim would no longer be anticipated by Woods (Patent Number 6,443,985).

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3738

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
